

— PHASE 2 · MODULE 1 · CLASS 3

Show off your **style** with a stunning cover.

Your cover is the visual handshake. Give people an instant glimpse of who you are and what your work looks like.

— WHY A COVER MATTERS

Three seconds to say: this is my brand.

A cover is not decoration. It is one more place to look consistent, clear and intentional.

01

Professional and polished

A clean cover helps your social profile look intentional from the first glance.

02

A stronger visual brand

Your name, colors and promise appear together instead of disappearing into a default template.

03

Fast, even for beginners

Start from a template when you want speed, or a blank canvas when you want full control.

Same name. Same colors. Same feeling – on both platforms.

— STEP 1-2 · LET CANVA SET THE SIZE

Search the platform. Open the right canvas

FACEBOOK COVER · 1640 × 924 PX

— STEP 5 · MAKE THE BLANK CANVAS YOURS

Four details turn a cover into **your** brand.

01 · NAME

Largest, clearest text.

02 · TAGLINE

Say what you help with.

03 · PHOTO OR LOGO

Upload your own visual.

04 · TYPE + COLOR

Match your saved palette.

SAFE ZONE

Keep essential text clear of platform edges.

You do not need to fill every corner. A clear name, useful tagline and one or two brand elements is enough.

USEFUL TIP · REUSE YOUR PALETTE

Right-click the colors Apply them to the page

YOUR SAVED PALETTE

One click changes the page, text and shapes to the same four colors. It keeps every cover on-palette without rebuilding it by hand.

Same design, on-brand colors

— STEP 3-4 · TEMPLATE OR BLANK?

Both are valid. Choose your starting point.

BLANK CANVAS

Fast, minimal and fully yours. Best when you already have a clear brand system.

PRE-DESIGNED TEMPLATE

Quick inspiration for beginners. Swap the content, colors and photos for your own.

The source stays the same either way: your name, your colors, your message.

— ONE BRAND · TWO PLATFORMS

Reuse the design. Adapt the **crop**.

Keep the name, tagline, fonts and colors consistent. Canva handles the platform-specific canvas when you search for each cover type.

FACEBOOK

1640 × 924 px

Wide space for the full
brand line.
