

Build a brand kit and guidelines

A Brand Kit is your brand's visual blueprint.
You don't need to be a full-time designer to help brands grow.

Now step into the role of a branding assistant for a client.

WHY A BRAND KIT

One blueprint, every platform.

It ensures consistency across all platforms, making the brand instantly recognisable.

THE SAME BRAND, EVERYWHERE IT APPEARS

Canva creates and manages the Brand Kit so your designs stay aligned and professional.

KEY STEP 1 · ACCESS THE BRAND KIT FEATURE

Open it from the Brand tab.

Navigate to the Brand tab on Canva's homepage, then click Brand Kit.

The screenshot shows the Canva interface with the 'Brand' tab selected. A yellow arrow points from the 'Brand' tab in the top navigation bar to the 'Brand' tab in the left sidebar. The main content area displays 'YOUR BRANDS' with a card for 'NORTHBAKE' (Northbake). Three numbered annotations are present on the right:

- 1 · BRAND TAB**
Canva keeps every brand's assets in one place.
- 2 · BRAND KIT**
Click Brand Kit to start setting up your brand elements.
- 3 · YOUR ASSETS**

KEY STEP 4 · APPLY YOUR BRAND KIT

Design faster, without drifting.

When creating new designs, apply your Brand Kit, and use predefined templates that already incorporate your brand elements.
